A Message from your Board of Directors

To All Community Members:

We have had an issue with the feral cat population at Candlewood Knolls for some time. Board members, and several community volunteers, have had dialog with a few experts and there is no easy solution to this problem. The experts tell us one thing is certain: people who are feeding the feral cat population and not taking the extra step of capturing these animals and turning them over to the appropriate authorities are making matters much worse, potentially causing a severe health hazard (not to mention the property damages these wild cats have created throughout our community).

Everyone is urged to STOP feeding feral cats. They are NOT domestic pets. The Board is working with representatives from the Town of New Fairfield to determine an action plan, which we hope to be able to communicate to CK residents throughout the summer and fall.

In the meantime, your cooperation would be appreciated.
